## ART OF LEARNING

We began the Art of Learning programme with Year 7 three years ago now having had excellent feedback from some other similar schools.

We are trying to instil the importance of resilience and independence of learning in our girls. The Art of Learning programme did not disappoint.

Highly experienced tutors came to work with the girls and every feedback form following each conference has been shown to me, evidencing the enormous benefit the girls have received.

In addition Lance King, the Director, personally came to train our staff and followed this up with an evening for parents. These were also very well received.

So pleased were we that we extended the programme to Year 10 and the girls regularly refer to some of the techniques they have learnt. In particular the girls have begun to change their mindset and open their minds as to the various possibilities for them.

If you are considering a programme of this nature I can highly recommend the Art of Learning.
